Professional Development Activities

Professional Development Activities										
Course Title	CE/CPE/CEU/CLE Hours	Course Format	City	State	Description	Sponsoring Organization (if applicable)	Start Semester	End Semester	Faculty Development Activity Type	Multidisciplinary Collaboration Activities Involved
AI Workshop					Cartedo is an AI-powered experiential learning platform that quickly turns course lessons into workplace simulations and provides personalized AI-generated learner feedback in real-time. In addition to subject matter competency, Cartedo's proprietary algorithms enable assessment and growth of key human-centric soft skills, which are critical to developing students' career readiness in today's technology-driven environment. In this session, Lisa Troy, Jean Phelps, and Brad Wesner will give an overview of the platform, including a demonstration of how it can be applied across different disciplines and scenarios.	Mays Business School	Fall 2024	Fall 2024	Workshop	
Person Ed Tech Symposium 2024: Empowering Educators with AI					AI-curiosity and explore the cutting edge of ed tech with experts in the fields of AI and education.		Fall 2024	Fall 2024		
Writing Effective AI Prompts					Create AI prompts using reflective questioning to refine outputs and efficiently.		Fall 2024	Fall 2024		
Leveraging AI to Develop Course Resources ACUE					Explore how AI can help you create engaging course materials and resources, enhancing student learning and saving you time.	ACUE	Fall 2024	Fall 2024		
Leveraging AI to Develop Course Resources ACUE					Explore how AI can help you create engaging course materials and resources, enhancing student learning and saving you time.	ACUE	Fall 2024	Fall 2024	Workshop	
Empowering Students to Use AI Responsibly					Learn how to develop students' understanding and responsible use of AI. ACUE	ACUE	Summer 2024	Summer 2024	Workshop	
Developing Students' Critical Thinking and Analytical Skills					Empower your students to become analytical thinkers who question assumptions, evaluate evidence, and solve problems. This course provides the tools you need to develop these essential skills in your students to prepare them for future success.		Summer 2024	Summer 2024		
Establishing a Culture of Constructive Conversations (in the classroom)					Foster a classroom environment where respectful dialogue and diverse perspectives flourish. Learn practical strategies to facilitate engaging discussions, teach active listening, and create a comfortable space for students to express themselves. ACUE	ACUE	Summer 2024	Summer 2024	Workshop	
Quality Matters Training		Online			Based on national standards of best practice, research findings, and instruction design principles, designed to promote student learning, integral to continuous quality improvement, part of an inter-institutional, faculty-driven, peer review process		Spring 2024	Spring 2024	Workshop	
CTE Hear from Peers: Navigating AI in the Classroom					CTE Hear from Peers: Navigating AI in the Classroom This workshop series invites faculty members from diverse disciplines to come together and explore the multifaceted landscape of generative AI. Through a series of engaging discussions and presentations, we will explore themes such as AI literacy and informed decision making, guidelines and policy for integrating AI in the classroom, responsibility and boundaries of AI-generated content, and ethics. Whether you are an expert in the use of AI or just curious about the possibilities of AI, this workshop promises to broaden your horizons. The workshop sessions take place on a weekly basis, rotating through different days each week.		Spring 2024	Spring 2024	Seminar	
Introduction to Generative AI - Overview and Exploration of Copilot		Online			This workshop introduces the world of Generative AI and its applications, with a special focus on Copilot, formerly known as Bing Chat. Participants will gain a foundational understanding of Generative AI and learn about the features of Copilot. Join this workshop and get your first hands-on experience with Copilot. Learning Outcomes: Participants will... Define Generative AI. Describe the different features of Copilot. Experiment with the features of Copilot.		Spring 2024	Spring 2024	Seminar	
Measuring, Motivating, and Monitoring Learning					In this session, participants will explore the overarching question: How will you and your students know what they know and are able to do because of your course? Monitoring and measuring learning can also motivate learners as can the use of transparent approaches and feedback in class. Faculty from different disciplines and course types will share about measures (e.g., assignments, exams, quizzes, ungraded activities) they have found beneficial in helping them (and their students) understand how well learning outcomes have been met in the course. Specifically, the use of Perceptive as a peer evaluation tool in large classrooms will be highlighted.		Spring 2024	Spring 2024	Seminar	

Facilitating Learning: An Introduction to the 5 Families of Teaching Strategies		This session explores the overarching question: How will you facilitate student learning? Focusing on the alignment between course learning outcomes and teaching strategies, participants will be introduced to the Five Families of Teaching Strategies as a framework for facilitating diverse learning goals. Participants will engage in small group discussions reflecting on the unique learning outcomes of their courses and practical strategies that can be employed to help students meet those learning outcomes. In addition, the best practices uses of teaching strategies such as discussion within the Canvas system will be highlighted.	Spring 2024	Spring 2024	Workshop
Hear from Peers: Navigating AI in the Classroom		This workshop series invites faculty members from diverse disciplines to come together and explore the multifaceted landscape of generative AI. Through a series of engaging discussions and presentations, we will explore themes such as AI literacy and informed decision making, guidelines and policy for integrating AI in the classroom, responsibility and boundaries of AI-generated content, and ethics. Whether you are an expert in the use of AI or just curious about the possibilities of AI, this workshop promises to broaden your horizons. The workshop sessions take place on a weekly basis, rotating through different days each week.	Spring 2024	Spring 2024	
AI		Dr. Derek Bruff, an acclaimed educator and faculty developer, offers options, strategies, and examples for reimagining assignments in the age of AI. Join us to learn. -What changes, if any, we need to make to our learning objectives considering AI -Options for designing assignments that leverage OR minimize the use of AI tools -The fundamentals of creating assignments that motivate and engage students -Teaching principles and practices to keep you moving forward as the AI landscape evolves	Spring 2024	Spring 2024	Seminar
AI & Academia: A New Era in Curriculum Design	Online	Leveraging empirical research, Instructor Heuermann will delve into AI's transformative role in curriculum design, addressing the growing demand for personalized, scalable education that AI can uniquely fulfill. This session is designed to help you grasp AI's role in sustainable curriculum. In this session, you will acquire the skills to integrate AI for better engagement and select appropriate AI tools for educational needs. You will take away an AI implementation roadmap, learn to utilize AI tools like ChatGPT for curriculum innovation, and evaluate AI's educational impact.	Spring 2024	Fall 2024	Conference Attendance
Hear from Peers: Navigating AI in the Classroom Feb 2024		Hear from Peers: Navigating AI in the Classroom This workshop series invites faculty members from diverse disciplines to come together and explore the multifaceted landscape of generative AI. Through a series of engaging discussions and presentations, we will explore themes such as AI literacy and informed decision making, guidelines and policy for integrating AI in the classroom, responsibility and boundaries of AI-generated content, and ethics. Whether you are an expert in the use of AI or just curious about the possibilities of AI, this workshop promises to broaden your horizons. The workshop sessions take place on a weekly basis, rotating through different days each week.	Spring 2024	Spring 2024	
Hear from Peers: Navigating AI in the Classroom		February 5, 2024 This workshop series invites faculty members from diverse disciplines to come together and explore the multifaceted landscape of generative AI. Through a series of engaging discussions and presentations, we will explore themes such as AI literacy and informed decision making, guidelines and policy for integrating AI in the classroom, responsibility and boundaries of AI-generated content, and ethics. Whether you are an expert in the use of AI or just curious about the possibilities of AI, this workshop promises to broaden your horizons. The workshop sessions take place on a weekly basis, rotating through different days each week.	Spring 2024	Spring 2024	Workshop

Goals (Faculty Evaluation Review)

Goals		
Please list what your goals were for the previous year and what your planned goals are for the upcoming year.	Start Semester	End Semester
To continue with professional development specifically learning more about AI and online teaching. Redevelop ISTM 210 PowerPoints. Redevelop and introduce new assignments in ISTM 209.	Fall 2023	Ongoing

Mandatory Training (Faculty Evaluation Review) - SECTION MUST BE COMPLETED

Certifications I certify my mandatory training is current and no outstanding training is pending:Yes I certify that I have no past due, outstanding or pending Concur items:Yes I certify that I have no past due, outstanding or pending Aggie Buy contracts: Yes I certify that I have no past due outstanding or pending Time and Effort items:Yes Start Semester: Fall 2023 End Semester: Spring 2025

Safety (Faculty Evaluation Review) - SECTION MUST BE COMPLETED

Safety in Teaching/Research Environment I certify that I am in compliance with all University/EHS safety requirements.:Yes Start Semester: Fall 2023 End Semester: Spring 2025
