FA2024	615.600	50	N	3.36	28	4.82	4.89

Received the INFO Teaching Excellence Award for Undergraduate MIS Students (2024).

Info on Research

While I did not publish any papers this year, the attached document “List of Scholarly Activities for Clinical Faculty” distributed by Mike Withers indicates a category that I have significantly contributed to this year: “Participation in accreditation or peer review processes (e.g., AACSB reviews, institutional assessments)”. This is located under bullet point 5 – Editorial and Peer Review Activities.

One of the many duties attached to my role as the Assistant Department Head is serving as the MIS representative on the Mays Assessment Steering Committee. This duty places me in charge of assessment for the BBA-MISY, MS-MIS (Traditional), and MS-MIS (Online) programs, as well as for the Business Intelligence and Analytics Certificate (CTG-BIAN) and the Cybersecurity Management Certificate (CTG-CYMG). This involves developing an assessment plan, executing that plan, collecting relevant data directly or organizing the collection from professors, performing the analysis, reporting

those results in HelioCampus (formerly AEFIS, formerly WEAVEOnline), and then developing action plans based on assessment results for each program and certificate each and every academic year (since 2015). In addition, every five years, those assessments are aggregated up as part of an AACSB review (the most recent of which occurred in the 2022-23 academic year). As you might imagine, this represents a significant expenditure of time and energy.

Info on Service

In my role as Graduate MIS Advisor, I am responsible for the advising of 125 (typically more) MS-MIS students. This entailed the following responsibilities:

- Reviewing and approving/rejecting degree plans through the OGAPS system for all second-year students, some first-year students (in preparation for internships), and PPA-MIS students. $125 \text{ students} \times 3 \text{ minutes} = 375 \text{ minutes} = \mathbf{6.25 \text{ hours for degree plans.}}$
- Reviewing, approving/rejecting, and processing (i.e., granting overrides and registering students for the classes in Compass) waitlist requests for all graduate ISTM and SCMT classes for each of the waitlist periods (7 per academic year). $6 \text{ hours} \times 7 \text{ review periods} = \mathbf{42 \text{ hours per year for waitlist requests.}}$
- Answering advising/registration/curriculum questions via email. I average between 100 and 200 emails per month, just for advising. Typically, answering these questions entails doing some level of research in order to answer accurately, because of the other parties involved (e.g., OGAPS and ISS). As you might expect, this number increases during each of the registration periods. However, let's conservatively compute $100 \text{ emails per month} \times 6 \text{ months} \times 5 \text{ minutes per response} = 3000 \text{ minutes} = \mathbf{50 \text{ hours for emails.}}$
- Further, I am required to be available for general advising office hours for 10 hours per week during each semester. **300 hours per year for general advising.**

This is just a sampling of my responsibilities under this role. So much of the work that advisors do never shows up on a schedule. Further responsibilities that I haven't even tried to put a time estimate to include:

- Ensuring that our students maintain compliance with ISS and visa standards. If I make an advising mistake in this capacity, the risk isn't just that a student might not graduate (though that risk is still present), it's that they might get deported.
- Processing Optional Practical Training forms for our graduating students.
- Processing Curricular Practical Training forms for our first-year students pursuing internships.
- Processing and evaluating applications to our MS-MIS program (traditional and 4+1), including making admissions decisions (as part of a committee).
- Processing WES evaluations to determine required prerequisite classes for incoming students.
- Generating graduation letters for our graduating international students documenting friends and family who have been invited to the United States to attend the graduation ceremony. These letters assist in the procurement of travel visas.

This is just the information about what I do as the graduate MIS advisor. When you consider my duties as an assistant department head and my committee work, my service commitments represent an enormous investment of time and energy.

University

- Member, University Professorships for Undergraduate Teaching Excellence Award Selection Committee (September 2023 – March 2024) **← NEW THIS YEAR**

College

- Vice President, APT Council, Texas A&M University (April 2024 – present) **← NEW THIS YEAR**
- Member, Aggies in Consulting Task Force, Texas A&M University (March 2024 – April 2024) **← NEW THIS YEAR**
- Member, Mays Assessment Steering Committee (MASC), Texas A&M University (August 2018 – present)
- Member, Mays Undergraduate Curriculum Committee (MUCC), Texas A&M University (August 2018 – present)
- Member, Mays CBK Review Sub-Committee, Texas A&M University (August 2018 – present)
- Member, Mays Graduate Curriculum Committee, Texas A&M University (June 2015 – present)

Department

- Assistant Department Head, Texas A&M University (June 2015 – present)
- Graduate MIS Advisor, Texas A&M University (May 2018 – May 2020; May 2021 – present)
- Member, Curriculum Redesign (PRD) Committee, Texas A&M University (February 2024 – present) **← NEW THIS YEAR (1.5 hour meetings every other week)**
- Undergraduate MIS Advisor, Texas A&M University (June 2015 – May 2018; May 2020 – May 2022)
- Chair, MIS Clinical Faculty Search Committee, Texas A&M University (May 2016 – present)
- Chair, Graduate MIS Curriculum Committee, Texas A&M University (March 2018 – present)
- Chair, BBA in MIS Curriculum Committee, Texas A&M University (June 2015 – present)
- Leader, MIS Teaching Improvement Collaborative (MISTIC), Texas A&M University (August 2019 – present)
- Member, CMIS Faculty Advisory Board, Texas A&M University (June 2015 – present)
- Member, INFO Department Scholarship Selection Committee, Texas A&M University (January 2015 – present)
