Goals (Faculty Evaluation Review)

Goals			
Please list what your goals were for the previous year and what your planned goals are for the upcoming year.		Start Semester	End Semester
Now that I am no longer an advisor, this has opened up opportunities to work on other aspects in the future. I have been a part of the Mays CBK Curriculum Planning Committee, Mays UG Curriculum Committee, Mays Assessment and Steering Committee, and TAMU Academic Affairs Committee. Service on these committees have been very interesting and educational. Working in these committees has helped me by providing me with ideas to collaborate on topics and identify common themes and cases that the students will see in their classes. I have been able to incorporate ideas into my classes that has been well received. I have also been actively soliciting student feedback on classes at the end of the semester to get ideas to incorporate topics and practices in my courses to make them more mutually beneficial. I will be on the Mays Curriculum Planning Committee starting this Spring. Given how much I have gained by collaborating with peers and the administration, I look forward to learning about the differences in students post-COVID and discussing ideas and curriculum that would benefit our students in this AI environment by identifying and adopting effective teaching methodologies to improve teaching and mentoring. I also intend to participate more in departmental research seminars, and actively participate in INFORMS and CSCMP national and regional meetings and roundtables to develop a network of research streams and collaborators. I also plan to participate in more developmental opportunities to become better personally and professionally.		Fall 2023	Ongoing
