

Dwayne Whitten
Spring 2024 - Fall 2024
Faculty Performance Evaluation Review Form
 Clinical Professor
 +1 (979) 8452919
 dwhitten@tamu.edu

Degrees

2004	Ph.D., Business Administration, Louisiana Tech University
1997	M.B.A., Business Administration, Henderson State University, Arkadelphia, AR
1994	B.A., Accounting and Business Administration, Ouachita Baptist University, Arkadelphia, AR

Professional Licensures

Input Form									
Effective Date	Expiration Date	Title	Organization	License Number (if applicable)	Month/Year Recertified	State of Issue	Country (if international licensure)	Type (if applicable)	Description
2011-01-28		Project Management Professional	Project Management Institute						PMP certification

Texas A&M - Administrative Appointments

Institutional Appointments				
Start Date of Appointment	End Date of Appointment	Position Title	Department, Unit (Center or Institute), or Program	Roles and/or Responsibilities (e.g., Director of Undergraduate Program, Assistant Department Head for Administration)
June 2020		Director		Director of MS-MIS Online program
September 2010	September 2012	Director		Director of the MS-MIS program

Teaching, Research and/or Other Scholarly or Creative Activities, and Service Impact Statement (Faculty Evaluation Review)

TRS / Creative Activities Statement	Semester
Research and Scholarly Contributions My research focuses on supply chain security, cybersecurity, IT outsourcing, and work-family balance in the digital age. I have contributed extensively to academic literature, publishing in top-tier journals such as the Journal of Operations Management, Journal of Applied Psychology, and MIS Quarterly Executive. My research on emancipatory technology in developing-world supply chains was recognized with the Ralph Gomory Best Industry Studies Paper Award, highlighting the broader societal implications of technology adoption in global business contexts. Overall, I have a Google Scholar h-index of 34, with over 7,500 citations. Additionally, my work on mobile device use, IT security, and work-family balance has informed both academic discourse and industry best practices. Studies such as "Tethered to Work: A Family Systems Approach Linking Mobile Device Use to Turnover Intentions" and "The Strategic Choice to Either Continue Outsourcing, Switch Vendors, or Backsource" have provided valuable insights into the evolving challenges of workplace technology integration. I have also contributed to the academic community through conference presentations, editorial board service, and peer reviews for leading journals such as Information Systems Research, Decision Sciences Journal, and the Journal of Computer Information Systems. My engagement ensures the advancement of knowledge within the fields of information systems and cybersecurity. Teaching Impact Throughout my career in academia, I have prioritized the development of innovative, rigorous, and industry-relevant coursework to prepare students for leadership roles in information systems, cybersecurity, and project management. As a Clinical Professor at Mays Business School, I have designed and delivered graduate and undergraduate courses across a broad range of disciplines, including IT Project Management, Cybersecurity, Business Telecommunications, Disaster Recovery, and Supply Chain Security. My approach integrates both theoretical foundations and practical applications, ensuring students are equipped with the technical expertise and strategic thinking required in today's evolving business landscape. I have played a pivotal role in online course development, creating fully online and hybrid courses such as ISTM630: IT Project Management, ISTM645: IT Security Controls, and SCMT375: Supply Chain Security. These courses expand accessibility and align with modern learning needs, particularly for working professionals. My commitment to pedagogical innovation has been recognized through numerous teaching awards, including the Texas A&M Association of Former Students Teaching Award and the Lockheed Martin Aeronautics Co. Excellence in Teaching Award. Beyond the classroom, I have actively contributed to curriculum development and student mentorship. As the Director of the MS-MIS Online Program and Director of Corporate Engagement for CMIS, I have strengthened industry partnerships, expanded student career opportunities, and guided the strategic direction of the program to ensure alignment with employer needs. Service and Industry Engagement Beyond teaching and research, I have actively engaged with industry and professional organizations to bridge the gap between academia and practice. As a Project Management Professional (PMP) certification holder, I bring real-world project management expertise to the classroom, enriching student learning experiences. My involvement with the Center for the Management of Information Systems (CMIS), the Texas A&M Cybersecurity Center, and the Energy Institute has facilitated collaborations between students, faculty, and industry leaders to address pressing challenges in IT security, supply chain management, and energy project portfolio management. Additionally, I have contributed to workforce development through corporate training, invited presentations, and advisory roles in cybersecurity, information risk management, and IT governance. My leadership in university committees, such as the Mays Graduate Curriculum Committee and the MS-MIS Online Task Force, underscores my dedication to academic program enhancement and institutional growth. My commitment to teaching excellence, impactful research, and industry collaboration has shaped the academic and professional trajectories of numerous students while advancing knowledge in cybersecurity, supply chain security, and IT project management. Through continued engagement in pedagogical innovation, scholarly research, and industry partnerships, I remain dedicated to preparing future leaders to navigate the complexities of digital transformation and global business challenges.	Fall 2024

Goals (Faculty Evaluation Review)

Goals		
Please list what your goals were for the previous year and what your planned goals are for the upcoming year.	Start Semester	End Semester
Teaching: 1. In-person ISTM630 a. rebuild the semester-long project b. continue to incorporate more product management into the course content, as that is a career goal of many of the students. 2. in-person ISTM655 a. rebuild most of the labs to be more rigorous and extensive b. reevaluate the content for updates 3. in-person SCMT645 a. update curriculum; last semester was the first time to build/teach the course b. update assignments as needed 4. online SCMT375 a. I rebuilt the course in Summer 2024, so only slight updates are needed. 5. Flex Online ISTM630 a. currently updating per Flex guidelines 6. Flex Online ISMT645 a. will update per Flex guidelines in Summer 2025	Spring 2024	Fall 2025
Service: 1. Continue to serve on committees as needed 2. Continue to recruit companies and individuals for INFO-related events such as guest speakers, company tours, etc.; This is non-CMIS related.		
Research: 1. Recently started a research project with Wendy Boswell in Mgmt targeted at HBR		
CMIS: 1. Increase membership 2. Create more opportunities for non-members to participate, perhaps with an "affiliated" membership status (lower membership dues and benefits) 3.) Expand the AI conference to two days; this includes a second day which is focused on academic research		
Flex Online: 1. Continue to increase enrollment 2. Identify changes to increase retention		

Mandatory Training (Faculty Evaluation Review) - SECTION MUST BE COMPLETED

Certifications I certify my mandatory training is current and no outstanding training is pending:Yes I certify that I have no past due, outstanding or pending Concur items:Yes I certify that I have no past due, outstanding or pending Aggie Buy contracts: Yes I certify that I have no past due outstanding or pending Time and Effort items:Yes Start Semester: Spring 2024 End Semester: Fall 2024
